WELCOME

The perfect balance between the artist's madness and the manager's precision, all playfully distorted by four paws of pure love and four of pure unpredictability.

Meet Laura and Massimiliano, the creative minds behind this enchanting rural project. Tiki, the adorable dog, and Chico, the cat, our charming but bossy overseer.

We are passionate about hospitality, and that's why we are dedicated to making those who choose Alma Calma feel right at home.

RESPECT FIRST OF ALL

OUR VALUES

RESPECT FOR NATURE

We firmly believe that connecting with nature and respecting its rhythms and rules holds the key to addressing any existential questions or needs.

ECO-FRIENDLY MATERIALS

We view pollution as a serious concern, which is why we exclusively use eco-friendly materials like lime instead of concrete.

We are constantly working to master techniques that not only improve comfort but also enhance aesthetics.

REDUCE, REUSE, RECYCLE

We try to fix what breaks and use what others throw away. Massimiliano is the king of renovation by reusing waste materials to preserve the environment.

TERRITORIAL REDEVELOPMENT

Reclaiming forgotten territories is a means of honouring both the landscape and its traditions. That's why we are committed to restoring an old house nestled in the heart of nature.

RURAL TRADITIONS
THE HOTEL

RURAL TRADITIONS

In our quest to create an authentic atmosphere at Alma Calma, we closely partnered with the local community, employing traditional materials and respecting local architecture to provide guests with an immersive cultural experience.

THE PLACE TO BE
We chose Tindaya because it's a magical place. Everyone in Fuerteventura will tell you the same. Tindaya possesses a unique energy, like a concentrated essence of the entire island within a small pueblo.
